

13 February 1970

MEMORANDUM FOR: [REDACTED]

SUBJECT : CDC 1700 - IBM 360/65 Interface

1. I concur in your decision to terminate the CDC 1700-IBM 360/65 interface effort as noted in your memo of 12 Feb 70. Although not mentioned specifically in your memo, I assume that factors related to need and potential benefits of the link also entered into your decision. If circumstances in the future suggest that a link from the CDC 1700 to some computer in our center should be considered, I would like to discuss the requirement with you before technical planning begins.

2. The OCS contact point for proceeding with the termination effort [REDACTED]

[REDACTED]
Acting Director of Computer Services
